DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, 16, drawn to a conveyor.

Group II, claim(s) 12-15, 17, drawn to a method of conveying foodstuffs.

2. The inventions listed as Groups I & II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the apparatus as claimed can be used to practice another and materially different process. Accordingly, if issued as is Groups I & II would be patentable over each other. The examiner considers failure by the applicant to cancel claim(s) 8 to indicate that there is no intention to claim the intended use of conveying foodstuffs in the apparatus claim(s) 1.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
